PROJECTS

IoT Based Smart Window Automation System

Designed and implemented an IoT-enabled Smart Window Automation System integrating environmental sensing, occupancy detection, renewable energy support, and remote monitoring for smart-building applications.

Engineered and validated a functional prototype featuring intelligent threshold-based decision logic, automated motorized window control, and cloud-assisted IoT communication.

SKILLS

- **Core Domain** : Embedded systems , IoT and Automation systems
- **Soft Skills** : Project management & planning ,Presentation ,Public Speaking , TeamWork
- **Software Tools** : MATLAB , Simulation Tools [simulink , TinkerCAD , Proteus etc,.]
- **Programming skills** : C , Python
- **Communication skills** : English , Tamil

EXTRACURRICULAR ACTIVITIES

- Member - Tamil Mandram Club

PARTICIPATION & CERTIFICATIONS

- Certification - NPTEL : Integrated Waste Management for a Smart city
- Certification - NPTEL : Introduction to Industry 4.0 & industrial IoT
- certification - Programming in python by META
- course completion on Introduction to Python - INFOSYS springboard
- course completion on Introduction to Data Science - INFOSYS springboard
- course completion - MATLAB Onramp
- course completion - Basics of Data Structure and Algorithm in simplilearn SKILLUP
- Theervathon'25 - PSGCAS & startupTN - participated
- TANCAM'S Hackathon TNWISE 2025 - participated
- participated in Bharatiya Antariksh Hackathon 2025
- participated in National Level Technical Hackathon TECHNOVA'26

WORKSHOPS & EVENTS

- Events of Tamil mandram Club
- Paper Presentation contest 2024 IETE-ECE
- HALCYON'25 - ELS CLUB
- Dry Run Debry - Code catalyst club
- Industrial course - PCB Designing , Design Thinking , Biology for engineers
